

Village Banking Mockup Design Pack

Visual direction, screen mockups, and workflow guidance

Design Personality

Quiet financial operations interface: clear, auditable, compact, and built for repeated monthly work.

Typography

Primary app font: Inter. Fallbacks: system-ui, Segoe UI, Helvetica, Arial, sans-serif.

Page titles: 20-24px semibold. Section titles: 14-16px semibold. Tables/forms: 13-14px regular.

UI Rules

Use dense tables for financial records and compact cards for totals.

Every amount should drill into its ledger source.

Use badges for compliance, locked states, approvals, and penalties.

Keep destructive actions behind confirmation dialogs with reason fields.

Avoid decorative hero layouts. This is an operations product.

Primary App Flow

Admin and member journeys through the monthly operating cycle

Member Flow

Login -> View obligations -> Submit declaration -> Track savings, loans, penalties, and statements.

Admin Flow

Configure cycle -> approve activity -> post ledger transactions -> run closing -> review snapshots -> lock month.

Member	Month	Type	Assessed	Paid	Status	Action
M. Phiri	Mar	Failure declare	K100	K0	Assessed	Convert
N. Chanda	Mar	Failure declare	K100	K0	Assessed	Mark paid
B. Zulu	Feb	Late payment	K50	K50	Paid	View

Conversion Confirmation

Converting an unpaid penalty creates a CONVERTED_PENALTY_LOAN ledger transaction. It becomes part of standing loan balance and starts accruing monthly loan interest.

Required: admin approval and reason.
